Test-10	Regression	15.05.2026
Test-11	Indian Economy	20.05.2026
Test-12	Full-Length Test-1	20.05.2026
Test-13	Full-Length Test-2	20.05.2026
Test-14	Full-Length Test-3	25.05.2026
Test-15	Full-Length Test-4	30.05.2026

* Tentative Dates. Can Change without Prior Information

RBI DEPR 2026 Phase-1 (only Paper-1-objective) Test Series: Details

- 1. Number of Tests: 15 Mock Tests** (including 11 Sectional Tests and 04 Full-Length Tests) for RBI DEPR Phase-1 (only Paper-1), as per last year's exam pattern and syllabus.
- 2. Validity:** RBI DEPR 2026 Phase-2 Exam
- 3.** Incorporates quality MCQs from all important topics of RBI DEPR Syllabus (last year's syllabus).
- 4. Solutions:** Well-explained solutions, with suitable links. These will help you build concepts for RBI DEPR Exam. However, we exercise the **discretion** to include or **NOT** to include 'Links' under Solution of any question.
- 5. Proven Track Record:** Previous Years' toppers will tell you that Testonomics RBI DEPR Test Series has consistently given many direct and indirect questions in the actual RBI DEPR Exam of previous years. And helped them improve their knowledge and preparation for other exams.
- 6. Laptop only:** Works only on a Laptop (and **NOT** on a mobile)
- 7. Single Device:** Login Allowed from only a **Single Device (Laptop)**. Login from more than one device will Lead to termination of the subscription. No Refund will be Applicable in this case.
- 8.** We will provide Only '**Text**' solutions (and **No Video Solutions**) for all questions
- 9.** Each Mock Test can be attempted **only once** in the 'Exam' mode. However, after attempting, you can go-through the Solutions any number of times.
- 10.** This Test Series does **NOT** include any Descriptive Tests. In particular, it does **NOT** provide any Mock Tests for **English Descriptive paper** (Phase-1, Paper-2 as per latest pattern). English Descriptive Mock Tests are included only under **Full-Course**.
- 11.** Refer to [FAQs](#) for more for Details

RBI DEPR 2026 Phase-1 (only Paper-1-objective) Test Series: Schedule

(At times, Mock Tests can contain some typographical errors. Please do not hesitate to drop us a message, in case of any confusion in a question or its solution).

S.No	Test Name & Release Date ²	Topic	Syllabus	No. of Ques. (Duration)
1.	Test-1 17.03.2026	Micro-1	<p>Theory of Consumer’s Demand: Cardinal Utility Analysis, Marginal Utility and Demand, Consumer’s Surplus, Elasticity, Indifference Curve Analysis and Utility Function; Price, Income and Substitution Effects; Slutsky’s Theorem and Derivation of Demand Curve; Revealed Preference Theory; Duality: Indirect Utility Function and Expenditure Function. Choice Under Risk and Uncertainty.</p> <p>Theory of Production: Factors of Production and Production Function; Forms of Production Function: Cobb- Douglas, CES And Fixed Coefficient Type, Translog, etc.; Laws Of Return: Returns to Scale and Return to Factors of Production; Duality and Cost Function; Measures of Productive Efficiency of Firms: Technical and Allocative Efficiency. Equilibrium of the Firm and Industry</p>	20-30 Questions

² Release dates of all Tests is tentative and can change without any prior information. If official RBI Recruitment Notification is released prior to the expected date, we may release most of these tests earlier than mentioned in this document

<p>2.</p>	<p>Test-2 26.03.2026</p>	<p>Micro-2</p>	<p>Theory of Market Structure: Perfect Competition, Monopolistic Competition, Oligopoly, Monopoly, Monopsony, etc.; Peak-Load Pricing, Oi's Tariff, Marshallian and Walrasian Stability Analysis. Pricing with Incomplete Information and Moral Hazard Problems.</p> <p>Basics of Game Theory: Simple Games of Complete Information, Concept of Nash-Equilibrium.</p> <p>Theory of Distribution: Neo-Classical Distribution Theories; Marginal Productivity Theory of Determination of Factor Prices, Factor Shares and Adding-up Problem. Euler's Theorem. Pricing of Factors under Imperfect Competition: Monopoly and Bilateral Monopoly. Macro-Distribution Theories of Ricardo, Marx, Kaldor, Kalecki. Ricardo's Theory of Rent and Modern Theory of Rent.</p> <p>Welfare Economics: Inter-Personal Comparison Problem; Public Goods and Externalities, Divergence between Social and Private Welfare. Compensation Principle. General Equilibrium. Pareto Optimality.</p> <p>Social Choice and Other Recent Schools, including Arrow, Coase and Sen</p>	<p>20-30 Questions</p>
-----------	------------------------------	----------------	--	------------------------

3. Frequently Asked Questions

1. I am considering enrolling in this Test Series a few days / weeks / months after the launch. I see that a few Mock Tests have been released on earlier dates. If I enroll now, will I be able to attempt the earlier released Mock Tests also?

OR

Is there any last date to attempt each Mock Test?

All Mock Tests can be attempted at any time till their validity. All Mock Tests are valid till the RBI DEPR 2026 Phase-2 Exam, **irrespective** of when you enroll in the Test Series.

2. I need some help in the English descriptive paper (Paper-2) of Phase-1. Is there a separate Test Series for it? For the English descriptive paper, we will conduct 3 Mock Tests for candidates enrolled in the Full-Course. However, we do not offer a standalone Test Series for the English descriptive paper.

3. When will RBI DEPR Phase-2 Test Series Begin?

We will begin the RBI DEPR Phase-2 Test Series, after the RBI Grade B 2026 official notification is released.

4. How will the 2026 Test Series differ from the 2025 Test Series?

We will construct the 2026 Test Series from scratch. Of course, there will be some questions which we retain identically from the previous years' Test Series. However, there will be new questions as well.

5. Will the Sectional Tests (Test-1 to Test-11) follow the same pattern as the final RBI DEPR Exam?

No. Sectional Mock Tests will contain fewer questions and may contain more numericals, than those observed in RBI DEPR 2025, 2024 and 2023 Exam. In Full-Length Mock Tests, we will try to mimic the RBI DEPR exam pattern of recent years.

Reasons:

- Numerical-based quantitative questions serve the role of 'umbrella' questions for any topic. For instance, if you are able to answer numericals from the topic of Substitution Effect and Income Effect correctly, then it seems plausible to believe that most of your concepts related to this topic are in order.
- The purpose of a Test Series is to help you fill the gaps in your preparation. While framing questions for the Mock Tests, we deliberately think like this "Which can be the important questions from this topic which a candidate may have missed." And if we find important numericals, we tend to include them in the Mock Tests.
- A few weeks after Phase-1 Exam, you also have to write the Phase-2 exam (of course, if you qualify Phase-1). In Phase-2, numericals can be asked. Hence, preparation for Phase-1 and Phase-2 should be common; only at practice stage would Phase-1 and Phase-2 differ.

6. Which books / sources to use for preparing the topics mentioned in Syllabus?

In the official notifications of 2023 and 2024, RBI had specified a (non-exhaustive) booklist. If you want, you may refer to it for reference. [Click Here](#) (Only for Reference, but please do not restrict to them. Be prepared to refer to multiple standard books/sources to cover the topics)

Note: In RBI DEPR Exam syllabus, there can be some ‘grey’ topics. That is, topics about which we are not sure of whether they fall within the RBI DEPR Syllabus or not. In the syllabus mentioned in this document, we have include most of those topics since we don’t want to miss out on even a single question in the exam.

If you want to skip them at your end, you can just ignore the questions from those topics. Always keep a copy of the official syllabus handy!
